

Call for Applications – ICT Energy Conference Scholarships

Are you a motivated engineer based in Sweden with a keen interest in ICT energy systems? Do you want to attend a leading international IEEE or similar conference and bring valuable insights back to the Swedish industry?

The **ICT Energy section of Svensk Elektronik** is offering **two scholarships of 30,000 SEK each** to support the participation of qualified engineers at a major conference in autumn 2026 or spring 2027.

About the Scholarship

- The scholarship is a **financial contribution** towards conference-related expenses, including travel, accommodation, and registration fees.
- Selected candidates will be expected to attend technical sessions and identify key highlights from the conference.
- As a **requirement**, recipients will present their **Technical Highlights** at the ICT Energy seminar in spring 2027, providing valuable insights to Swedish industry professionals.

Who Can Apply?

- Engineers working in Sweden with a focus on **energy solutions for ICT systems**.
- Both **young professionals** looking to expand their expertise and network internationally, as well as **more experienced engineers** who wish to contribute their insights, are welcome to apply.
- Applicants must have **approval from their employer**, as additional costs beyond the scholarship amount (such as salary, additional travel costs, and preparation time for the seminar presentation) are expected to be covered by the employer.

Application & Selection Process

- Applications must include a **CV**, a **brief motivation letter**, and an **endorsement from the employer** confirming their support for participation. In addition, we would like the applicant to choose one or more of the below listed conferences and describe why the applicant would like to attend the conference.
- The ICT Energy section will **select candidates**, with final approval from the Svensk Elektronik board.

List of possible conferences

- INTELEC 2026, Nürnberg, Germany (<https://www.intelec.org/>)
- APEC 2027, New Orleans, USA (<https://apec-conf.org/>)
- OCP Global Summit 2026, San José, USA (<https://www.opencompute.org/summit/global-summit>)
- Future Grid & AI Data Centres Europe 2026, Frankfurt, Germany (<https://www.fgdc-europe.com/>)
- Data Centre & AI Leaders Summit 2027, Sydney, Australia (<https://datacentreleaders.com/>)
- AI x Energy Summit, San Diego, USA (<https://ai-energy.sdsu.edu/>)

Apply Now!

The deadline for applications is **September 10th 2026**. For more information about the specific conference and how to submit your application, please contact **mikael.flodin@teliacompany.com**.
